SKILLS

- **Languages:** C/C++, JavaScript, TypeScript
- **Frameworks & Libraries:** ReactJS, NodeJS, Express, HTML and CSS, Tailwind CSS
- **Tools & Platforms:** MySQL, MongoDB, Git, GitHub, Figma, Postman
- **Core CS Fundamentals:** DBMS, OS, SQL, OOPs
- **Soft Skills:** Time Management, Leadership, Problem-Solving, Adaptability, Quick Learner

PROJECTS

ArtisanHub | MERN Stack E-commerce Platform | [GitHub](#)

Mar' 26

- Developed a full-stack MERN e-commerce platform with REST APIs, CRUD operations, authentication, and responsive UI.
- Implemented user registration and login with MongoDB database validation, bcrypt password hashing, and JWT-based authentication to ensure secure access and protected routes.
- Built dynamic product management features including AI-generated product images, automatic "New Arrivals" updates when new items are added, and sorting/filtering by price and category for improved user experience.
- Refined performance achieving Lighthouse score of 97+ across key metrics.

Tech stack: ReactJS, JavaScript, NodeJS, Express, Tailwind CSS, MongoDB

SmartPocket | Web-Based Finance Management System | [GitHub](#)

Dec' 25

- Created a full-stack finance management platform with real-time data tracking, REST APIs, and data visualization dashboards.
- Designed interactive dashboards and data visualizations to analyze spending patterns, monthly trends, and budgeting insights.
- Integrated automated financial reports and expense categorization, helping users make informed financial decisions.
- Improved application efficiency, achieving Lighthouse score of 97+.

Tech stack: ReactJS, JavaScript, NodeJS, Express, Bootstrap, MongoDB

TRAINING

Summer Training Internship - Fundamental of Data Structures using C++

June' 25 – July' 25

- Completed a six-week intensive training program focused on Data Structures and Algorithms using C++, with a practice-oriented learning approach.
- Strengthened core concepts through live/recorded sessions, hands-on coding exercises, and module-wise assignments.
- Worked on real-world coding tasks and mini-projects under industry-level mentorship.
- Applied coding discipline using Git & GitHub for version control and code management.

Tech stack: C++, Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP), Git, GitHub

CERTIFICATES

- Cloud Computing | NPTEL IIT Kharagpur | [Link](#) Oct' 25
- Built Generative AI Apps and Solutions with No-Code Tools | INFOSYS | [Link](#) Aug' 25
- Computational Theory: Language Principle & Finite Automation theory | INFOSYS | [Link](#) Aug' 25
- Responsive web designing | freeCodeCamp | [Link](#) Nov' 23

ACHIEVEMENTS

- Solved 300+ coding problems across LeetCode, GFG & HackerRank, sharpening problem-solving skills.

EDUCATION

Lovely Professional University

Bachelor of Technology - Computer Science and Engineering; **CGPA: 7.36**

Punjab, India
Aug' 23 - Present

PCP School

Intermediate; **Percentage: 95.8**

Jhunjhunu, Rajasthan
Apr' 21 – Mar' 22

Nawal Public School

Matriculation; **Percentage: 83.6**

Jhunjhunu, Rajasthan
Apr' 19 - Mar' 20
